

SAN JOSE, CALIFORNIA; THURSDAY, AUGUST 6, 2026

10:04 A.M.

KENJI M. STRAND-OYELARAN,
having been first duly sworn, was examined and testified
as follows:

EXAMINATION

BY MS. VANTERPOOL:

Q. Good morning, Mr. Strand-Oyelaran. Would you
state and spell your full name for the record, please.

A. Kenji Makoto Strand-Oyelaran. K-E-N-J-I,
M-A-K-O-T-O, S-T-R-A-N-D, hyphen, O-Y-E-L-A-R-A-N.

Q. And what is your position at Halverson
Dynamics?

A. I am the senior reliability engineer for the
300-series product line.

Q. How long have you held that position?

A. Since March of 2022.

Q. I want to direct your attention to what has
been marked as Exhibit 14. Do you recognize it?

A. Yes. This is the internal recall notice that
went to distributors in May of 2024.

Q. Did you participate in drafting it?

1 MR. ARBUTHNOT: Objection. Vague as to
2 "participate."

3 MS. VANTERPOOL: You can answer.

4 THE WITNESS: I reviewed the technical
5 description in the second paragraph. I did not write
6 the rest of it.

7 BY MS. VANTERPOOL:

8 Q. The second paragraph says the insulation
9 "degrades under sustained operation above 85 percent
10 relative humidity." Is that an accurate description of
11 what your testing showed?

12 A. It is a fair summary. The full test report
13 has the curves.

14 Q. When was the full test report completed?

15 A. The final version is dated January 19, 2024.

16 Q. And before January 19, 2024, had you or anyone
17 on your team reported the insulation issue to anyone
18 outside the engineering group?

19 MR. ARBUTHNOT: Objection. Calls for
20 speculation as to what others may have done.

21 MS. VANTERPOOL: I asked about him and his
22 team.

23 MR. ARBUTHNOT: Same objection. Go ahead.

24 THE WITNESS: I sent a summary to the product
25 manager in November of 2023.

1 BY MS. VANTERPOOL:

2 Q. Who was the product manager in November of
3 2023?

4 A. Beatriz Anand-Whitlock.

5 Q. Was that summary in writing?

6 A. It was an email.

7 Q. Did she respond?

8 A. She asked whether the issue affected units
9 already in the field. I said that it did.

10 Q. What happened after that?

11 A. I was asked to run the extended humidity
12 protocol, which is what became the January report.

13 MS. VANTERPOOL: Let's take a short break.

14 THE VIDEOGRAPHER: Going off the record at
15 10:41 a.m.

16 (Recess taken.)

17 THE VIDEOGRAPHER: We are back on the record
18 at 10:52 a.m.

19 BY MS. VANTERPOOL:

20 Q. Before the break you mentioned the extended
21 humidity protocol. Can you describe it?

22 A. Units run continuously in a chamber held at
23 90 percent relative humidity for 1,500 hours, with
24 harness temperature logged every ten minutes.

REPORTER'S CERTIFICATE

I, Anneliese Okafor-Brandt, CSR No. 14022, a Certified Shorthand Reporter in and for the State of California, do hereby certify:

That the foregoing deposition was taken before me at the time and place therein set forth; that the witness was duly sworn by me; that the testimony was reported stenographically by me and thereafter transcribed under my direction; and that the foregoing is a true record of the testimony given.

I further certify that I am not of counsel or attorney for any of the parties, nor in any way interested in the outcome of this action.

Dated: August 20, 2026

Anneliese Okafor-Brandt, CSR 14022
